The Department of Ocean Engineering at the University of Rhode Island (URI) invites applications for a tenure-track faculty position in ocean energy systems at the Assistant Professor level. The appointment will begin January of 2011. The successful candidate will be expected to develop a vigorous, externally-funded research program in the area of offshore energy. Responsibilities will include advising graduate students and teaching undergraduate and graduate courses within the Department. Collaborate with other departments in the College and University. Members of the Department are heavily involved in the design, development, and testing of wave and in stream tidal current energy systems and siting and design of offshore wind farms. Review of applications will begin September 15, 2010 and will continue until position is filled. Applications will be accepted by electronic submission only. Visit https://jobs.uri.edu to view complete details for job posting # (6000145). The University of Rhode Island is an AA/EEOD employer and values diversity. URI is an E-Verify employer.
